The Valley of the Word serves as both the headquarters and spiritual home of the Synod of Strategic Prophecy. Its location remains one of the most closely guarded secrets in all of Christendom – a hidden temple nestled deep within a remote European gorge, where the very stones help to amplify the echo of God's words.

The floor of the valley itself forms the cloister of the temple, covered with arrays of dishes, antennae, radio telescopes and listening posts, all straining towards the heavens. The cryptic messages received are processed through great difference engines, designed by the Synod's Ordained Engineers, then translated, analysed and studied by scholar monks from the many monasteries, each specialising in their own area of divine interpretation.

At the very heart of the valley stands the Gate of God, a colossal steepled tower that serves as the conduit for receiving the Holy Words yet remains incomplete. Each year it rises higher, its maze-like network of antennae, loudspeakers and receptors emitting a hymn of every language ever spoken.

The Observers emerge from their cells only for the most critical missions, when the Synod elders have received divine guidance. Whether reinforcing a collapsing front or eliminating heretic assassins who have infiltrated the heartlands of Christendom, in times of need the Synod Elders even send out whole Retinues with their Warriors to ensure whatever Prophecy was uncovered.

In recent years the War Cardinal has voiced criticism of the Synod, likening their tower to the hubristic act of Babel. To strengthen their Position in Clergy, the Synod Elders have begun sending out whole Retinues of Warriors to make a visible and felt impact at the front lines of the Conflict.

## Warband Creation

*You have 700 to recruit a Synod Warband for a campaign (> see Starting a Warband). The Synod of Strategic Prophecy are Faithful.*

## Special Rules

The following special rules apply to Synod Warbands (including any Synod Variant Warbands):

- **Strategic Prophesying:** Before the start of each Turn, shuffle your Prophecy Deck and draw Prophecy Cards as shown below. Secretly choose which cards to play this Turn and return the rest to the deck. When a played Prophecy Card resolves and your prediction was correct, gain 1 Prophecy DICE.

| Games Played | Prophecy Cards |
|---|---|
| 1-2 | Draw 4 play 2 |
| 3-5 | Draw 5 play 3 |
| 6-9 | Draw 7 play 4 |
| 10+ | Draw 8 play 5 |

- **Prophecy Cards:** Each card reads True at one end and False at the other, rotated 180° from each other. Play it with your prediction facing the battlefield. Cards like Initiative can only be played when the enemy makes that decision this Turn.

- **Prophecy DICE:** When you gain a Prophecy DICE, roll a D6 and set it aside face up. Before any model makes a Success Roll, you may expend it to replace one DICE with its exact result. Injury Rolls are not Success Rolls. If a roll is rerolled with Eye of God, any Prophecy DICE added to it is kept.

- **Without Cards:** If both players agree, do not use Prophecy Cards. Instead, at the start of each Turn, gain Prophecy DICE equal to half the number of Prophecy Cards you could play, rounding up.

# Armoury Tables

*The Synod of Strategic Prophecy can have the following Battlekit. Battlekit with a bullet point [•] is unique to Synod, and its rules can be found in the Faction Battlekit section below. (▶ see Battlekit in the Trench Crusade Digital Rulebook).*

## Ranged Weapons

| | | |
|---|---|---|
| Automatic Pistol | Limit: 3 | 20 |
| Automatic Rifle | Bayonet Lug, Limit: 1 | 40 |
| Automatic Shotgun | Bayonet Lug, Shield Combo, Limit: 2 | 13 |
| Bolt-Action Rifle | Bayonet Lug | 10 |
| **•Compact Machine Gun** | Shield Combo, Limit: 2 | 40 |
| Grenade Launcher | Limit: 2 | 30 |
| Machine Gun | Limit: 1 | 50 |
| Pistol | | 5 |
| Semi-Automatic Rifle | Bayonet Lug | 12 |
| Shotgun | Bayonet Lug, Shield Combo | 10 |
| Sniper Rifle | Limit: 3 | 35 |
| Submachine Gun | Bayonet Lug, Shield Combo, Limit: 2 | 30 |

## Melee Weapons

| | | |
|---|---|---|
| **•Angel Shard Spear** | ELITE only, Limit: 1 | 25 |
| Bayonet | Shield Combo | 2 |
| Great Hammer/Maul | | 10 |
| Great Sword/Axe | | 12 |
| Polearm | Shield Combo | 7 |
| Sword | | 4 |
| Trench Club | | 3 |
| Trench Knife | | 1 |
| **•Warden's Axe** | Watcher only | 20 |

## Grenades

| | | |
|---|---|---|
| Frag Grenade | | 7 |
| Incendiary Grenades | | 10 |

## Shields

| | | |
|---|---|---|
| Trench Shield | | 10 |

## Armour

| | | |
|---|---|---|
| Reinforced Armour | ELITE and Heavy Infantry only | 40 |
| Standard Armour | | 15 |

## Equipment

| | | |
|---|---|---|
| **•Ark of the Signal** | Any SYNOD model, Limit: 3 | 15 |
| Binoculars | ELITE only | 10 |
| **•Blessed Bullets** | Limit: 2 | 10 |
| Combat Helmet | Headgear | 5 |
| **•Connection** | Promoted ELITE only | 10 |
| **•Davidic Rosary** | Limit: 3 | 5 |
| Field Shrine | | 2 ✳ |
| Gas Mask | | 5 |
| Medi-kit | | 5 |
| Mountaineer Kit | Limit: 4 | 3 |
| Musical Instrument | Limit: 1 | 15 |
| **•Oculus Helmet** | Headgear, ELITE and Observer Initiate only | 2 ✳ |
| Shovel | | 5 |
| Troop Flag | | 1 ✳ |

# Your Faction Battlekit

The following Battlekit items are unique to the Synod of Strategic Prophecy. Rules for all other items are in the standard Battlekit section (▶ see Battlekit in the Trench Crusade Digital Rulebook).

**Blessed Bullets | 10 ⓿ | Limit: 2**

*Some crates of munitions that enter the Valley of the Word are stored in the vaults at the foot of the Gate of God until they are needed. Rounds that have lain that close to the Word are counted as blessed.*

| Type | Range | Keywords |
|---|---|---|
| Equipment | | AMMUNITION (Negate CRITICAL Keyword) |

- **Sanctified:** A Success Result of a **10+** is converted to a Critical Success but cannot benefit from the CRITICAL Keyword or the Bull's Eye Rule.

**Davidic Rosary | 5 ⓿ | Limit: 3**

*A string of brass beads cast in the lesser workshops beneath the Calefactory, each bead stamped with a verse from the First Book of Samuel. Soldiers of the Synod wind the rosary around the grip of their weapon and recite the story of David and Goliath before a charge.*

| Type | Range | Keywords |
|---|---|---|
| Equipment | | |

- **David:** If an Injury Roll for a 2-Handed Melee Attack made by this model is 7 or higher before Injury Modifiers are applied, the target is at least taken Down. This affects enemy models that normally treat Down results as a Minor Hit result (such as models wearing Machine Armour).

**Angel Shard Spear | 25 ⓿ | ELITE only, Limit: 1**

*Under the Covenant of Heaven and Hell no true Angel may walk the Earth, yet the faithful keep finding shards and relics they claim can be of no other origin. Most prove worthless. A few have withstood every test the Church could devise, and the Holy See has quietly accepted them as genuine. Some years ago it made the Synod a single gift: a set of spears whose heads were forged from relics traced back to the Angels themselves.*

| Type | Range | Keywords |
|---|---|---|
| 2-Handed | Melee | +1 INJURY MODIFIER, CUMBERSOME |

- **Cast Down the Fallen:** When attacking a Down enemy, this weapon has DEADLY instead of +1 INJURY MODIFIER.
- **Burden of Heaven:** A model with this weapon does not gain the D6 Charge Bonus.

**Warden's Axe | 20 ⓿ | Watcher only**

*Forged from bolts drawn out of the hundred-ton vault doors beneath the Gate of God. A Watcher carries one blade and one shield, and needs nothing more.*

| Type | Range | Keywords |
|---|---|---|
| 1-Handed | Melee | +1 INJURY MODIFIER |

- **Shield Bash:** A model with this weapon and a Trench Shield can also make Melee Attacks with the shield, using the Trench Club profile. The shield counts as an Off-Hand Weapon.

Glory Items

**Compact Machine Gun | 40 ⓿ | Limit: 2**
*A cut-down machine gun built in the valley's foundries for close work in trenches and tunnels.*

| Type | Range | Keywords |
|---|---|---|
| 2-Handed | 16" | AUTOMATIC (3), HEAVY, SHOTGUN, SHIELD COMBO |

**Ark of the Signal | 15 ⓿ | Limit: 3**

*Smaller replicas of the ornate Arks of the Signal, giving a direct connection to the Valley of the Word wherever they are set up.*

| Type | Range | Keywords |
|---|---|---|
| 1-Handed | Special | DEPLOYABLE, HEAVY, HELD |

An **Ark of the Signal** is represented by a terrain piece that is about **1" high** and which is mounted on a **25mm base**. *It is Impassable terrain.*

- **Place Ark ACTION:** Deploy the Ark anywhere within 1" of this model.
- **Pick Up Ark ACTION:** If this model is within 1" of a friendly Ark of the Signal, take a Success Roll. On a Success or Critical Success, this model picks it up.
- **Destroying the Ark:** Any player can target a deployed Ark with a Ranged or Melee Attack. If the attack hits, remove the Ark from the battlefield.
- **Silent Ground:** Enemy models within 8" of a deployed Ark that are Down are not allowed to stand up if a SYNOD model is within 1" of them.

**Oculus Helmet | 2 ✳ | ELITE and Observer Initiate only**

*The valley is home to all manner of workshops and foundries which produce the armaments of the Observers. The most important of these is the Calefactory where the wondrous Oculus helmets are created out of pure Orichalcum, each one a unique masterpiece of engineering and craftsmanship.*

| Type | Range | Keywords |
|---|---|---|
| Helmet | | |

- **Eye of God:** You can re-roll failed Success Rolls and Risky Success Rolls for a model with this Helmet. If you do so and any of the rolled dice show a 1, then the roll is treated as a Failure, the model is taken Down, and their Activation immediately ends. Increases this model's base size to 32mm if it was 25mm.

**Connection | 10 ⓿ | Promoted ELITE only**

*The Elites of the Synod do not need to shout orders across the battlefield. Through the Signal they move the lesser warriors of the Retinue like puppets. Even the lowliest Serf, dragged from his hovel into the Valley, has receivers set into his skull, and once the Signal reaches him he cannot refuse a command.*

| Type | Range | Keywords |
|---|---|---|
| Equipment | | |

**Signal ACTION:** Pick 1 friendly Receptor or Serf within 18" that is not Down. It immediately takes a Move, Shoot or Fight ACTION, even if it has already been Activated this Turn. It cannot Charge or Retreat as part of this ACTION

# Elite Warband Entries:
# The Attuned

## 1 Prophetic Tactician – Cost: 80

A Synod Warband must include 1 Prophetic Tactician

*Beneath the central tower, deep within the Valley of the Words bedrock, dwell the Prophetic Tacticians, the most precious assets of the Synod. These gifted children are surgically, genetically, and chemically altered to make them perfectly suited to their role. They are equipped with strange and esoteric equipment that allows them to hear the word of God. For reasons the Synod elders still cannot begin to explain, some Tacticians undergo Corporal Mitosis during their service. From the flesh of the host -most often the torso or abdomen- a second body slowly buds and grows. When the new body reaches the size of the original, the two separate. Though they act autonomously, they seem to house the same soul. One cannot survive without the other, but neither can truly die alone.*

| Movement | Ranged | Melee | Armour | Base |
|---|---|---|---|---|
| 6"/Infantry | **+1 DICE** | **+1 DICE** | 0 | 25 mm |

**Battlekit** A Prophetic Tactician can have any Battlekit that is not a Grenade from the Synod Armoury Tables.

**Abilities**

- **Corporal Mitosis:** A *Prophetic Tactician* is deployed as two identical models treated as a single model. They share BLOOD MARKERS, Activation/Down states, and ACTIONS. Each ACTION except Move, Dash, and Charge may only be taken once per Activation across both models.
- **Sharing God's Voice ACTION:** Take a Success Roll. On a Success or Critical Success, select one enemy model within 12" and in Line of Sight. That model is taken Down, ignoring any rule that would prevent it from being taken Down.
- **Signal ACTION:** Pick 1 friendly Receptor or Serf within 18" that is not Down. It immediately takes a Move, Shoot or Fight ACTION, even if it has already been Activated this Turn. It cannot Charge or Retreat as part of this ACTION.

**Keywords** SYNOD, ELITE, LEADER, WEAK, TOUGH

**WEAK Keyword:** *1-Handed Weapons carried by this model are treated as 2-Handed. 2-Handed Weapons carried by this model gain the HEAVY Keyword. This model cannot be equipped with Battlekit that has the HEAVY Keyword.*
*(note: getting strong negates both keywords)*

## 0-1 Watcher – Cost: 120

*Some chambers beneath the Gate of God lie deeper still than the cells of the Prophetic Tacticians. They are sealed behind vault doors of a hundred tons and guarded by a cadre of Watchers, the most elite warriors of the Temple, crowned by horns of light. What lies behind those doors is not known outside the Synod. Some claim to have seen alchemists of the Iron Sultanate passing through, and lay brothers speak of a wailing that rises through the stone at night.*

*The Watchers leave the Valley only to accompany the child Tacticians. Their safety on the battlefield can never be guaranteed, but a Watcher brings swift retribution to anyone who dares to threaten them.*

| Movement | Ranged | Melee | Armour | Base |
|---|---|---|---|---|
| 6"/Infantry | **+1 DICE** | **+2 DICE** | -2 | 32 mm |

*Art: Pavel Shut*

**Battlekit** A Watcher is always equipped with Reinforced Armour. The Injury Modifier for the Armour is included in the model's profile above. It can have any other Battlekit from the Synod Armoury Tables, apart from Armour and Ranged Weapons or Grenades with a range over 12".

**Abilities**

- **Crown of Light:** Add `-1 INJURY DICE` to Injury Rolls against this model.
- **Retribution:** Once per Turn, after another friendly `SYNOD` model within 6" of this model is targeted by an Attack, you can redeploy this model anywhere within 6" of its original location (measured from the centre of its base to the centre of its base) and more than 1" away from any enemy models.
- **Signal ACTION:** Pick 1 friendly Receptor or Serf within 18" that is not Down. It immediately takes a Move, Shoot or Fight `ACTION`, even if it has already been Activated this Turn. It cannot Charge or Retreat as part of this `ACTION`.

# Troop Warband Entries: Servants of the Signal

## Serf – Cost: 25

*Any innocent farmer or pilgrim who stumbles into the Valley of the Word without divine sanction is rewarded with a lifetime of absolute servitude.*

| Movement | Ranged | Melee | Armour | Base |
|---|---|---|---|---|
| 6"/Infantry | +0 DICE | +0 DICE | 0 | 25 mm |

**Battlekit** A Serf can have any Battlekit from the Synod Armoury Tables.

**Abilities**
- **Sacrificial Bodyguard:** When a SYNOD model within 1" is targeted by a Ranged or Melee Attack, this model can intercept the hit. If it does, make the Injury Roll for this model instead. A Down result becomes Out of Action. Cannot be used against BLAST.

**Keywords** SYNOD, WEAK

**WEAK Keyword:** 1-Handed Weapons carried by this model are treated as 2-Handed. 2-Handed Weapons carried by this model gain the HEAVY Keyword. This model cannot be equipped with Battlekit that has the HEAVY Keyword. *(note: getting strong negates both keywords)*

## Receptor – Cost: 30

*Some Serfs are chosen to become Receptors. The surgeons of the Synod cut away the parts of the brain that could hinder the Word of God from flowing through the body, and graft receivers and amplifiers onto the skull and spine to catch and strengthen the Signal. Few survive the procedure. A finished Receptor moves like a remote-controlled doll. It has no desires of its own, follows every order it is given, and helps to carry the Signal wherever its Retinue goes.*

| Movement | Ranged | Melee | Armour | Base |
|---|---|---|---|---|
| 8"/Infantry | +0 DICE | +0 DICE | 0 | 25 mm |

**Battlekit** A Receptor can have any Battlekit from the Synod Armoury Tables.

**Abilities**
- **Link:** While this model is within the effect range of a deployed Ark of the Signal or of another Linked Receptor, it is Linked. Any Ark effect is also active within 4" of a Linked Receptor.
- **Hollow Vessel:** This model cannot take the Dash ACTION or ACTIONS granted by a scenario and does not count when determining control of objectives.

## 0-2 Ark Bearer – Cost: 60

*The tower is circled day and night by processions of the Arks of the Signal. The bearers of these arks, which are fashioned after the Ark of the Covenant and integrated with sophisticated radio arrays, are permanently connected to them with synaptic cables and chemical tubes. They labour ceaselessly to locate the optimal position of the ark they bear on each given day so that the Synod can capture the most elusive words of God, beyond the reach of the main arrays of the tower.*

*In battle the bearers turn the signal their Ark receives towards the enemy, and the Word strikes with enough force to throw monsters off their feet.*

| Movement | Ranged | Melee | Armour | Base |
|---|---|---|---|---|
| 6"/Infantry | **+1 DICE** | **+0 DICE** | 0 | 40 mm |

**Battlekit** An Ark Bearer always has the Projected Word and can have Battlekit from the Synod Armoury Tables, except for Ranged Weapons or Grenades.

**Abilities**

- **Pray ACTION:** Reroll one of your Prophecy DICE.

**Keywords** SYNOD

*Art: Alexander Trufanov*

**Projected Word**

*The Signal of the Word of God, released. Physically impacts the World.*

| Type | Range | Keywords |
|---|---|---|
| 1-Handed | 30" | BLAST 3 , SCATTER |

- **Bound to the Ark:** This weapon can only be used while this model is within 8" of a deployed Ark of the Signal or within 4" of a Linked Receptor.
- **Echo of the Word:** Injury Rolls for other models caught in the Projected Word's BLAST are made with -1 INJURY DICE.
- **Words of Force:** If a model that has been hit by a Projected Word is not taken Out of Action by the Injury Roll, it is blown away 4" in a straight line, even if it has been taken Down by the Injury Roll. If the model was the target of the attack, the Synod player chooses the direction. Otherwise, it is blown directly away from the centre of the BLAST.

## Observer Initiate – Cost: 50

*To be accepted into the ranks of the prestigious Observers, an aspirant must forge a direct and personal connection with God. Many promising Initiates seek that connection on the hectic battlefield, accompanying their idols into the fray. They cherish these final years of unfiltered existence, knowing that should they prove worthy, they will one day don the Oculus Helmet and with it, trade the noise of the living world for the all-encompassing Voice of the Divine.*

| Movement | Ranged | Melee | Armour | Base |
|---|---|---|---|---|
| 7"/Infantry | **+0 DICE** | **+1 DICE** | 0 | 25 mm |

**Battlekit** An Observer Initiate can have any Battlekit from the Synod Armoury Tables.

**Abilities**
- **Lightning Speed:** Any 2-Handed Melee weapon the Observer Initiate carries has the `CLEAVE 2` and `CUMBERSOME` Keywords.
- **Aspirant's Journey:** *[see below]*

**Keywords** `SYNOD`

**Note:**
A model without `STRONG` that carries a `HEAVY` melee weapon only loses its D6 Charge Bonus.

*Art: Jung Hee-gyu (Heegur)*

**Aspirant's Journey**

After each battle in which this model takes at least one enemy model Out of Action and survives, or completes a Glorious Deed, you may buy one upgrade below for 10 ducats. Each upgrade can be bought once on each model.

- **Temporal Fugue:** Add `-1 DICE` to rolls for Ranged Attacks and Melee Attacks that target this model.
- **Martial Prowess:** Add `+1 DICE` to this model's Melee Characteristic and increase its Movement to 8".
- **Divine Command:** `RISKY ACTION:` Take a Risky Success Roll. On a Success or Critical Success, pick 1 friendly or enemy model within 20" and in Line of Sight that has not been Activated this Turn. This model's Activation ends and the picked model's Activation begins immediately. A model Activated this way cannot pick a friendly model. A model with Divine Command cannot carry Ranged Weapons or Grenades.
- **PROMOTION:** When this model is promoted, it is renamed Synod Observer and gains every upgrade above that it does not already have, at no cost. Add the cost of these upgrades to this model's value for the purposes of the Ducat Threshold.

## 0-1 Combat Medic – Cost: 65

*Human bodies are fragile things when exposed to the raw power of the Divine. The Synod therefore maintains a cadre of the Sisters of Saint Cosmas.*

| Movement | Ranged | Melee | Armour | Base |
|---|---|---|---|---|
| 6"/Infantry | +0 DICE | +0 DICE | -1 | 25 mm |

Art: Mike Franchina

**Battlekit** A Combat Medic always has Standard Armour, a Gas Mask, a Medi-kit, and a Misericordia (▶ see Battlekit in the Trench Crusade Digital Rulebook). The Injury Modifier for the Armour is included in the model's Profile above. They can also have any Battlekit from the Synod Armoury Tables, apart from Armour.

**Abilities**

- **Expert Medic:** Add +2 DICE to the Risky Success Roll when a Combat Medic carries out a Treat ACTION with their Medi-kit.
- **Finish the Fallen:** Due to their knowledge of anatomy and physiology, medics are experts at inflicting debilitating injuries and excruciating pain. Add +1 INJURY DICE to Injury Rolls for Melee Attacks made by a Combat Medic if the target is Down and does not have the BLACK GRAIL or DEMONIC Keywords.

**Keywords** SYNOD

## 0-2 Synod Engineer – Cost: 50

*The Synod Engineers spend their lives in the workshops and foundries beneath the Valley of the Word, maintaining the vast arrays of the Gate of God. To them the continued operation of blessed machinery matters far more than any number of human lives. On campaign they scout ahead of the Retinue, searching for mines and any other danger that could threaten the Arks it carries.*

| Movement | Ranged | Melee | Armour | Base |
|---|---|---|---|---|
| 6"/Infantry | +1 DICE | +0 DICE | 0 | 25 mm |

Art: Whaleoil

**Battlekit** A Synod Engineer can have any Battlekit from the Synod Armoury Tables.

**Abilities**

- **Defuse Mine:** When this model moves into contact with a Marker or terrain piece with the MINED Keyword, take a Risky Success Roll. On a Success or Critical Success, it loses the MINED Keyword. On a Failure, the mine detonates and this model's Activation ends.

## 0-3 Sanctified Heavy Infantry – Cost: 95

*The Sanctified Heavy Infantry are the most visible part of the Synod's growing army, and the part that troubles the War Cardinal most. Each soldier wears a suit of battle-plate cast in the Calefactory from the same Orichalcum as the Oculus helmets. The suits are too heavy for most men, so the Synod recruits its heavy infantry from veterans of New Antioch who have survived at least one of the great sieges.*

*Before each battle every soldier receives a prophecy of the fight to come. Lay brothers engrave it on the inside of the soldier's breastplate, so that the words press against his chest as he marches. After the battle the engraving is ground away and the plate is made ready for the next prophecy.*

*Because they know where their comrades will be, the Sanctified fire into melee without hesitation, and they advance through artillery barrages that would break other troops, trusting that the shells will land where the prophecy said they would.*

| Movement | Ranged | Melee | Armour | Base |
|---|---|---|---|---|
| 6"/Infantry | **+1 DICE** | **+0 DICE** | -2 | 40 mm |

**Battlekit** A *Sanctified Heavy Infantryman* is always equipped with Reinforced Armour and can have any Battlekit from the Synod Armoury Tables.

**Abilities**

- **Prophetic Aim:** Expend 1 Prophecy DICE. Until the end of the Turn, add +2 to the D6 this model rolls to determine the target when Shooting Into Melee.

# Campaign Armoury and Patrons

Select a Patron for your Warband from this list. Your choice determines which Skill you may select if you roll a Patron Skill result on any Skill Table. A Synod Warband can choose the Warrior Saint or the Learned Saint (▶ see Patrons in the Trench Crusade Digital Rulebook), or The Gate of God below.

## The Gate of God

*The Gate of God is the unfinished tower at the heart of the Valley of the Word. A Warband sworn to it answers to no saint and no cardinal, only to the Word as the Gate receives it.*

- **Marked for Judgement:** Bloodbath Rolls for attacks made by this model cost 3 `BLOOD MARKERS`, even if the target is not Down.
- **Unending Hymn:** Add `-1 DICE` to Success Rolls for enemy models within 3" of this model.
- **Envoy of the Synod:** Gain access to 1 model from the New Antioch or Trench Pilgrims Warband lists (Limit: 1). It loses the `ELITE` Keyword and gains `UNPROMOTABLE`. It stays in your Warband even if the model with this Skill is lost.
- **Foretold Move ACTION:** Pick 1 enemy model within 12" and in Line of Sight that the opponent is allowed to Activate. This model's Activation ends, and the opponent must Activate the picked model next.
- **Herald of the Ark:** Friendly Arks of the Signal within 8" of this model cannot be targeted by enemy models.

# Glory Items

A Synod Warband can buy the following Glory Items during a campaign when an Exploration discovery allows it (▶ see Glory Items in the Trench Crusade Digital Rulebook). Items marked with [•] are unique to the Synod.

| Item | Cost | Restriction | Effect |
|---|---|---|---|
| **•Votive Array** | 4 ✷ | *Limit: 1* | DEPLOYABLE. At the start of every odd-numbered Turn, gain 1 Prophecy DICE. Any player can target a deployed Votive Array with a Ranged or Melee Attack. If the attack hits, remove it from the battlefield. |
| **•Prime Receptor** | 3 ✷ | *Receptor only, Limit: 1* | This model gains the GOLEM and WEAK Keywords. It does not roll on the Trauma Table when it is taken Out of Action. |
| **•Sight Unbound** | 4 ✷ | *Observer Initiate and Synod Observer only* | This model can carry Ranged Weapons and Grenades, even if it has Divine Command. |
| **Ducat Golem** | 4 ✷ | *Limit: 1* | Added to your Arsenal, not to a model. At the end of each game, your Warband gains D6x5 ducats. |
| **Holy Grenade** | 2 ✷ | *Limit: 3* | Grenade, 8", ASSAULT, BLAST 2 , SHRAPNEL. Add +1 INJURY DICE to rolls against models with the BLACK GRAIL or DEMONIC Keyword. |
| **Field Hospital** | 10 ✷ | *Limit: 1* | Added to your Arsenal. If your Warband includes a Combat Medic, at the end of the Trauma Step you can treat 1 model with Battle Scars: roll 2D6. On 7+, remove 1 Battle Scar. On 3-6, nothing happens. On 2, the model gains 1 Battle Scar. |
| **Resurrection Engine** | 11 ✷ | *Limit: 1,* CONSUMABLE | Added to your Arsenal. Once per campaign, change a result rolled on the Trauma Table to Full Recovery. |
| **Smokescreen** | 7 ✷ | *Limit: 1* | At the start of a battle, after deployment, divide the battlefield into quarters and pick one. Add -1 DICE to Ranged Attacks whose Line of Sight crosses that quarter. |
| **Sniper Scope** | 2 ✷ | *Rifle only, Limit: 2* | Pick 1 Ranged Weapon this model has with "Rifle" in its name. It gains IGNORE LONG RANGE. It cannot be reallocated. |
| **Knighthood** | 4 ✷ | ELITE *only, Limit: 1* | At the end of each game, your Warband gains 1 glory for each model with a Knighthood on the battlefield. |
