The Valley of the Word serves as both the headquarters and spiritual home of the Synod of Strategic Prophecy. Its location remains one of the most closely guarded secrets in all of Christendom – a hidden temple nestled deep within a remote European gorge, where the very stones help to amplify the echo of God's words.

The floor of the valley itself forms the cloister of the temple, covered with arrays of dishes, antennae, radio telescopes and listening posts, all straining towards the heavens. The cryptic messages received are processed through great difference engines, designed by the Synod's Ordained Engineers, then translated, analysed and studied by scholar monks from the many monasteries, each specialising in their own area of divine interpretation.

At the very heart of the valley stands the Gate of God, a colossal steepled tower that serves as the conduit for receiving the Holy Words yet remains incomplete. Each year it rises higher, its maze-like network of antennae, loudspeakers and receptors emitting a hymn of every language ever spoken.

The Observers leave their cells only for the most critical missions, when the Synod Elders have received divine guidance, reinforcing collapsing fronts or hunting down heretic assassins bold enough to reach for the heartlands of Christendom.

In recent years the War Cardinal has tried opposing the Synod's involvement in Church affairs, warning in his sermons to never repeat the mistakes of the City of Babel. To secure their standing within the Church, the Synod's Elders have begun to send whole Warbands to the front, where their work can be seen and felt.

Warband Creation

You have 700 to recruit a Synod Warband for a campaign (> see Starting a Warband). The Synod of Strategic Prophecy are Faithful.

Special Rules

The following special rules apply to Synod Warbands (including any Synod Variant Warbands):

PROPHECY DICE

- **Rolling:** At the start of each Turn, roll D6s until you have 3 `PROPHECY DICE`. Set them aside next to the battlefield without changing their results.
- **Prophesize:** Before a Success Roll is made for a model within 8" of a deployed Ark of the Signal or 8" of a Linked Receptor, you can expend 1 `PROPHECY DICE` to replace one of the dice that would be kept with its result. Only 1 `PROPHECY DICE` can be expended per `ACTION`. Synod Variant Warbands change what this rule does.
- **Discarding:** At the end of each Turn, you can discard any of your `PROPHECY DICE`.

STRATEGIC PROPHESIZING

- **Prediction:** Once per Turn, after Initiative has been determined, you can play one Prophecy Card face up, with True or False facing the battlefield as your prediction. You can only play a card if the enemy has both `ELITE` and non-`ELITE` models on the battlefield.
- **Vanguard:** The first model your opponent Activates this Turn is `ELITE`.
- **Rearguard:** The last model your opponent Activates this Turn is `ELITE`.
- **Reward:** If your prediction is correct, roll until you have 4 `PROPHECY DICE` at the start of the next Turn (5 if your Ducat Threshold is 1400 or more).

THE SIGNAL

Through the Signal, an Elite of the Synod floods a Receptor, or a villager or child conscripted as a shield of flesh, with recordings of the Voice of God. The body cannot refuse and moves as the Voice commands. The strain is extreme, and most collapse once the Voice falls silent.

- **Signal ACTION:** Every `ELITE` model in a Synod Warband has this `ACTION`. Pick 1 friendly Receptor or Serf within 18". It immediately takes a Move, Shoot or Charge `ACTION`, even if it has already been Activated this Turn.
- **Charge:** If the model took a Charge `ACTION`, it then takes a Fight `ACTION`.
- **Shoot:** Weapons with the `BLAST` Keyword cannot be used.
- **Strain:** After the `ACTION`, the model is taken Down. Do not place a `BLOOD MARKER` on it for this.

Your Faction Battlekit

The following Battlekit items are unique to the Synod of Strategic Prophecy. Rules for all other items are in the standard Battlekit section (▶ see Battlekit in the Trench Crusade Digital Rulebook).

Blessed Bullets | 10 ⛑ | Limit: 2

Some crates of munitions that enter the Valley of the Word are stored in the vaults at the foot of the Gate of God until they are needed. Rounds that have lain that close to the Word are counted as blessed.

Type	Range	Keywords
Equipment		AMMUNITION, NEGATE CRITICAL

- **Sanctified:** A Success Result of a **10+** is converted to a Critical Success but cannot benefit from the CRITICAL Keyword or the Bull's Eye Rule.

Davidic Rosary | 5 ⛑ | Non-ELITE only

A string of brass beads cast in the lesser workshops beneath the Calefactory, each bead stamped with a verse from the First Book of Samuel. Soldiers of the Synod wind the rosary around the grip of their weapon and recite the story of David and Goliath before a charge.

Type	Range	Keywords
Equipment		

- **David:** If an Injury Roll for a 2-Handed Melee Attack made by this model is 7 or higher before Injury Modifiers are applied, the target is at least taken Down. This affects enemy models that normally treat Down results as a Minor Hit result (such as models wearing Machine Armour).

Angel Shard Spear | 25 ⛑ | ELITE only, Limit: 1

Under the Covenant of Heaven and Hell no true Angel may walk the Earth, yet the faithful keep finding shards and relics they claim can be of no other origin. Most prove worthless. A few have withstood every test the Church could devise, and the Holy See has quietly accepted them as genuine. Some years ago it made the Synod a single gift: a set of spears whose heads were forged from relics traced back to the Angels themselves.

Type	Range	Keywords
2-Handed	Melee	+1 INJURY MODIFIER, CUMBERSOME

- **Cast Down the Fallen:** When attacking a Down enemy, this weapon has DEADLY instead of +1 INJURY MODIFIER.
- **Burden of Heaven:** A model with this weapon does not gain the D6 Charge Bonus.

Compact Machine Gun | 40 ⛑ | Limit: 2
A cut-down machine gun built in the valley's foundries for close work in trenches and tunnels.

Type	Range	Keywords
2-Handed	16"	AUTOMATIC (3), HEAVY, SHOTGUN, SHIELD COMBO

Ark of the Signal | 10 ⛑ | Limit: 3

Small portable versions of the Arks used in the Valley of the Word. Wherever one is set up, it gives the Retinue a direct connection to the Valley.

Type	Range	Keywords
Equipment	Special	DEPLOYABLE, HEAVY

An **Ark of the Signal** is represented by a terrain piece that is about **1" high** and which is mounted on a **25mm base**. *It is Impassable terrain.*

- **Carrying the Ark:** A model carrying an Ark cannot take Shoot or Fight ACTIONS. An Ark Bearer can still use the Projected Word.
- **Place Ark ACTION:** Deploy the Ark anywhere within 1" of this model.
- **Pick Up Ark ACTION:** If this model is within 1" of a friendly Ark of the Signal, take a Success Roll. On a Success or Critical Success, this model picks it up.
- **Destroying the Ark:** Any player can target a deployed Ark with a Ranged or Melee Attack. If the attack hits, remove the Ark from the battlefield.
- **Silent Ground:** Enemy models within 8" of a deployed Ark that are Down are not allowed to stand up if a SYNOD model is within 1" of them.

Oculus Helmet | 2 | ELITE and Observer Initiate only

The valley is home to all manner of workshops and foundries which produce the armaments of the Observers. The most important of these is the Calefactory where the wondrous Oculus helmets are created out of pure Orichalcum, each one a unique masterpiece of engineering and craftsmanship.

Type	Range	Keywords
Headgear		

- **Eye of God:** You can re-roll failed Success Rolls and Risky Success Rolls for a model with this Helmet. If you do so and any of the rolled dice show a 1, then the roll is treated as a Failure, the model is taken Down, and their Activation immediately ends. If this model has a 25mm base, its base size increases to 32mm.

Elite Warband Entries: The Attuned

1 Prophetic Tactician – Cost: 70

A Synod Warband must include 1 Prophetic Tactician

Beneath the central tower, deep within the Valley of the Word's bedrock, dwell the Prophetic Tacticians, the most precious assets of the Synod. These gifted children are surgically, genetically, and chemically altered to make them perfectly suited to their role. They are equipped with strange and esoteric equipment that allows them to hear the word of God. For reasons the Synod elders still cannot begin to explain, some Tacticians undergo Corporal Mitosis during their service. From the flesh of the host, most often the torso or abdomen, a second body slowly buds and grows. When the new body reaches the size of the original, the two separate. Though they act autonomously, they seem to house the same soul. One cannot survive without the other, but neither can truly die alone.

Movement	Ranged	Melee	Armour	Base
6"/Infantry	**+1 DICE**	**+1 DICE**	0	25 mm

Battlekit A Prophetic Tactician can have any Battlekit that is not a Grenade from the Synod Armoury Tables.

Abilities

- **Corporal Mitosis:** A Prophetic Tactician is deployed as two identical models treated as a single model. They share BLOOD MARKERS and ACTIONS, are Activated together, and are taken Down together. Each ACTION except Move, Dash, and Charge may only be taken once per Activation across both models.
- **Sharing God's Voice ACTION:** Take a Success Roll. On a Success or Critical Success, select one enemy model within 12" and in Line of Sight. That model is taken Down, ignoring any rule that would prevent it from being taken Down.

Keywords SYNOD, ELITE, LEADER, WEAK, TOUGH

WEAK Keyword: *1-Handed Weapons carried by this model are treated as 2-Handed. 2-Handed Weapons carried by this model gain the HEAVY Keyword. This model cannot be equipped with Battlekit that has the HEAVY Keyword or with Grenades. A model with both STRONG and WEAK has neither Keyword.*

0-1 Watcher – Cost: 140

Some chambers beneath the Gate of God lie deeper still than the cells of the Prophetic Tacticians. They are sealed behind vault doors of a hundred tons and guarded by a cadre of Watchers, the most elite warriors of the Temple, crowned by horns of light. What lies behind those doors is not known outside the Synod. Some claim to have seen alchemists of the Iron Sultanate passing through, and lay brothers speak of a wailing that rises through the stone at night.

The Watchers leave the Valley only to accompany the child Tacticians. Their safety on the battlefield can never be guaranteed, but a Watcher brings swift retribution to anyone who dares to threaten them.

Movement	Ranged	Melee	Armour	Base
6"/Infantry	**+1 DICE**	**+2 DICE**	-2	32 mm

Art: Pavel Shut

Battlekit A Watcher is always equipped with Reinforced Armour, a Watcher's Axe and a Trench Shield. The Injury Modifier for the Armour is included in the model's profile above. It can have any other Battlekit from the Synod Armoury Tables, apart from Armour, Melee Weapons, and Ranged Weapons or Grenades with a range over 12".

Abilities

- **Crown of Light:** Add `-1 INJURY DICE` to Injury Rolls against this model.
- **Retribution:** After another friendly `SYNOD` model within 6" of this model is targeted by an Attack, you can pick up this model and redeploy it anywhere within 6" of the location it originally occupied, measured from the centre of its base, and more than 1" away from any enemy models.

Troop Warband Entries: Servants of the Signal

Serf – Cost: 25

Any innocent farmer or pilgrim who stumbles into the Valley of the Word without divine sanction is rewarded with a lifetime of absolute servitude.

Movement	Ranged	Melee	Armour	Base
6"/Infantry	**+0 DICE**	**+0 DICE**	0	25 mm

Battlekit A Serf can have any Battlekit from the Synod Armoury Tables.

Abilities
- **Sacrificial Bodyguard:** If a friendly SYNOD model within 1" of this model is hit by a Ranged Attack or Melee Attack, you can say that this model will take the hit. If you do so, make an Injury Roll for this model instead of the original target, and treat a Down result as an Out of Action result. This ability cannot be used against attacks that have the BLAST Keyword.

Keywords SYNOD, WEAK

WEAK Keyword: 1-Handed Weapons carried by this model are treated as 2-Handed. 2-Handed Weapons carried by this model gain the HEAVY Keyword. This model cannot be equipped with Battlekit that has the HEAVY Keyword or with Grenades. A model with both STRONG and WEAK has neither Keyword.

Receptor – Cost: 30

Some Serfs are chosen to become Receptors. The surgeons of the Synod cut away the parts of the brain that could hinder the Word of God from flowing through the body, and graft receivers and amplifiers onto the skull and spine to catch and strengthen the Signal. Few survive the procedure. A finished Receptor moves like a remote-controlled doll. It has no desires of its own, follows every order it is given, and helps to carry the Signal wherever its Retinue goes.

Movement	Ranged	Melee	Armour	Base
8"/Infantry	**+0 DICE**	**+1 DICE**	0	25 mm

Battlekit A Receptor can have any Battlekit from the Synod Armoury Tables.

Abilities
- **Link:** While this model is within 8" of a deployed Ark of the Signal or of another Linked Receptor, it is Linked. Rules that apply within 8" of a deployed Ark of the Signal also apply within 8" of a Linked Receptor.
- **Hollow Vessel:** This model cannot take the Dash ACTION or ACTIONS granted by a scenario and does not count when determining control of objectives.

0-2 Ark Bearer – Cost: 60

The tower is circled day and night by processions of the Arks of the Signal. The bearers of these arks, which are fashioned after the Ark of the Covenant and integrated with sophisticated radio arrays, are permanently connected to them with synaptic cables and chemical tubes. They labour ceaselessly to locate the optimal position of the ark they bear on each given day so that the Synod can capture the most elusive words of God, beyond the reach of the main arrays of the tower.

In battle the bearers turn the signal their Ark receives towards the enemy, and the Word strikes with enough force to throw monsters off their feet.

Movement	Ranged	Melee	Armour	Base
6"/Infantry	**+1 DICE**	**+0 DICE**	0	25 mm

Battlekit An Ark Bearer always has the Projected Word and can have Battlekit from the Synod Armoury Tables, except for Ranged Weapons or Grenades.

Abilities

- **Pray RISKY ACTION:** Take a Risky Success Roll. On a Success or Critical Success, re-roll one of your `PROPHECY DICE`.

Keywords `SYNOD`

Projected Word

The Word of God, released through the Ark with physical force.

Type	Range	Keywords
1-Handed	36"	`BLAST 3 , SCATTER, FIRE`

- **Bound to the Ark:** This weapon can only be used while this model is carrying an Ark of the Signal, or is within 8" of a deployed Ark of the Signal or of a Linked Receptor.
- **Words of Force:** Treat an Out of Action result on Injury Rolls for this weapon as a Down result. A model that has been hit by a Projected Word is blown away 4" in a straight line, even if it has been taken Down by the Injury Roll. If the model was the target of the attack, the Synod player chooses the direction. Otherwise, it is blown directly away from the centre of the `BLAST`.

Observer Initiate – Cost: 50

To be accepted into the ranks of the prestigious Observers, an aspirant must forge a direct and personal connection with God. Many promising Initiates seek that connection on the hectic battlefield, accompanying their idols into the fray. They cherish these final years of unfiltered existence, knowing that should they prove worthy, they will one day don the Oculus Helmet and with it, trade the noise of the living world for the all-encompassing Voice of the Divine.

7"/Infantry	**+0 DICE**	**+1 DICE**	0	25 mm

Battlekit An Observer Initiate can have any Battlekit from the Synod Armoury Tables.

Abilities
- **Lightning Speed:** Any 2-Handed Melee weapon the Observer Initiate carries has the `CLEAVE 2` and `CUMBERSOME` Keywords.
- **Aspirant's Journey:** *[see below]*

Keywords `SYNOD`

Note:
A model without `STRONG` that carries a `HEAVY` melee weapon only loses its D6 Charge Bonus.

Art: Jung Hee-gyu (Heegur)

Aspirant's Journey

After each battle in which this model takes at least one enemy model Out of Action and survives, or completes a Glorious Deed, you may buy one upgrade below for 10 ducats. Each upgrade can be bought once on each model.

- **Temporal Fugue:** Add `-1 DICE` to rolls for Ranged Attacks and Melee Attacks that target this model.
- **Proven Before God:** Add `+1 DICE` to this model's Melee Characteristic and increase its Movement to 8".
- **Divine Command** `RISKY ACTION:` Take a Risky Success Roll. On a Success or Critical Success, pick 1 friendly model within 12", or 1 enemy model within 20" and in Line of Sight, that has not been Activated this Turn. This model's Activation ends and the picked model's Activation begins immediately. A model Activated by Divine Command cannot use Divine Command on a friendly model during that Activation. A model with Divine Command cannot carry Ranged Weapons or Grenades.
- **PROMOTION:** When this model is promoted, it is renamed Synod Observer and gains every upgrade above that it does not already have, at no cost. Add the cost of these upgrades to this model's value for the purposes of the Ducat Threshold.

0-1 Combat Medic – Cost: 65

Human bodies are fragile things when exposed to the raw power of the Divine. The Synod therefore maintains a cadre of the Sisters of Saint Cosmas.

Battlekit A Combat Medic always has Standard Armour, a Gas Mask, a Medi-kit, and a Misericordia (▶ see Battlekit in the Trench Crusade Digital Rulebook). The Injury Modifier for the Armour is included in the model's Profile above. They can also have any Battlekit from the Synod Armoury Tables, apart from Armour.

Abilities

- **Expert Medic:** Add +2 DICE to the Risky Success Roll when a Combat Medic carries out a Treat ACTION with their Medi-kit.
- **Finish the Fallen:** Due to their knowledge of anatomy and physiology, medics are experts at inflicting debilitating injuries and excruciating pain. Add +1 INJURY DICE to Injury Rolls for Melee Attacks made by a Combat Medic if the target is Down and does not have the BLACK GRAIL or DEMONIC Keywords.

Keywords SYNOD

0-2 Synod Engineer – Cost: 50

The Synod Engineers spend their lives in the workshops and foundries beneath the Valley of the Word, maintaining the vast arrays of the Gate of God. To them the continued operation of blessed machinery matters far more than any number of human lives. On campaign they scout ahead of the Retinue, searching for mines and any other danger that could threaten the Arks it carries.

Movement	Ranged	Melee	Armour	Base

Battlekit A Synod Engineer can have any Battlekit from the Synod Armoury Tables.

Abilities

- **Defuse Mine:** When this model moves into contact with a Marker or terrain piece with the MINED Keyword, take a Risky Success Roll. On a Success or Critical Success, it loses the MINED Keyword. On a Failure, the mine detonates and this model's Activation ends.
  Stoßgebet ACTION: Take a Success Roll with +2 DICE. On a Success, pick 1 friendly ARTIFICIAL model within 8". It stands up or loses 1 BLOOD MARKER. On a Critical Success, it can lose up to 3 BLOOD MARKERS instead.

0-3 Sanctified Heavy Infantry – Cost: 85

The Sanctified Heavy Infantry are the most visible part of the Synod's growing army, and the part that troubles the War Cardinal most. Each soldier wears a suit of battle-plate cast in the Calefactory from the same Orichalcum as the Oculus helmets. The suits are too heavy for most men, so the Synod recruits its heavy infantry from veterans of New Antioch who have survived at least one of the great sieges.

Before each battle every soldier receives a prophecy of the fight to come. Lay brothers engrave it on the inside of the soldier's breastplate, so that the words press against his chest as he marches. After the battle the engraving is ground away and the plate is made ready for the next prophecy.

Because they know where their comrades will be, the Sanctified fire into melee without hesitation, and they advance through artillery barrages that would break other troops, trusting that the shells will land where the prophecy said they would.

WARBAND VARIANT RECRUITMENT

An Assassins Warband can recruit the following models from the Synod of Strategic Prophecy Warband List, with the associated special rules and changes to their Model Limits.

- **1-4 Sicarii:** One Sicarius must be the Master Sicarius (▶ see Sicarius below).
- **Observer Initiates**
- **0-4 Serfs**
- **0+ Receptors**
- **0-1 Ark Bearer**
- **0-2 Synod Engineers**
- **0-1 Combat Medic**

1-4 Sicarius – Cost: 65

The Sicarii are Observers who left the cloister for the knife. They take no part in the prayers of the Retinue. They wait in the dark for the names the midnight band reads out, and then they go to the doors those names belong to.

Movement	Ranged	Melee	Armour	Base
8"/Infantry	N/A	+2 DICE	0	32 mm

Battlekit A Sicarius is always equipped with an Oculus Helmet. The cost of the helmet is included in its cost. It can have any Battlekit from the Assassins Armoury Tables, apart from Ranged Weapons and Grenades.

Abilities

- **Master Sicarius:** One Sicarius in the Warband must be the Master Sicarius. It gains the `LEADER` and `TOUGH` Keywords and costs 10 ducats more.
- **Sicarius Training:** Each Sicarius has one of the following Trainings:
- **Training 1:** When this model takes a Charge `ACTION`, it can pick up to 2 enemy models as the targets of the charge. During the charge move it can move through enemy models, but it cannot end the move overlapping another base. If it finishes the charge within 1" of both targets, it can take one Fight `ACTION` against each of them.
- **Hidden Doorways:** During deployment, place 2 Doorway markers anywhere on the battlefield more than 8" from the enemy deployment zone. You can keep this model and up to 2 friendly Receptors in reserve instead of deploying them. At the start of Turn 2, set them up within 3" of one Doorway marker and more than 1" from any enemy model.
- **Training 3:** Once per Turn, when this model takes an enemy model Down or Out of Action with a Melee Attack, it can immediately

move up to 3". If it ends this move within 1" of an enemy model, it can take an additional Fight ACTION against that model this Turn.
- **Training 4:** If this model has no BLOOD MARKERS, treat any Out of Action result on an Injury Roll against it as a Down result instead.

Keywords SYNOD, ELITE

SPECIAL RULES

The following special rules apply to an Assassins Warband in addition to those that apply to Synod Warbands.

- **Prophesize:** Replaces the base Prophesize rule. PROPHECY DICE cannot be expended on Success Rolls. Instead, before one of your models Activates, you can expend 1 PROPHECY DICE on an enemy model that has not been Activated this Turn. Apply the effect for its result until the end of that Activation.

Result	Effect
1	Place 1 BLOOD MARKER on the target.
2	Add +1 DICE to Attacks against the target.
3	Attacks against the target ignore cover.
4	Ignore one -1 INJURY DICE the target has.
5	Ignore one -1 Injury Modifier the target has.
6	The target can be Charged without Line of Sight.

WARBAND VARIANT ARMOURY & BATTLEKIT

Campaign Armoury and Patrons

Select a Patron for your Warband from this list. Your choice determines which Skill you may select if you roll a Patron Skill result on any Skill Table. A Synod Warband can choose the Warrior Saint or the Learned Saint (▶ see Patrons in the Trench Crusade Digital Rulebook), or The Gate of God below.

The Gate of God

The Gate of God is the unfinished tower at the heart of the Valley of the Word. A Warband sworn to it answers to no saint and no cardinal, only to the Word as the Gate receives it.

- **Marked for Judgement:** Bloodbath Rolls for attacks made by this model cost 3 `BLOOD MARKERS`, even if the target is not Down. If the target is Down, Bloodbath Rolls for Melee Attacks made by this model cost 2 `BLOOD MARKERS`.
- **Unending Hymn:** Add `-1 DICE` to Success Rolls for enemy models within 3" of this model.
- **Envoy of the Synod:** Gain access to 1 model from the New Antioch or Trench Pilgrims Warband lists (Limit: 1). It loses the `ELITE` Keyword and gains `UNPROMOTABLE`. It stays in your Warband even if the model with this Skill is lost.
- **Foretold Move ACTION:** Pick 1 enemy model within 24" and in Line of Sight that the opponent is allowed to Activate. This model's Activation ends, and the opponent must Activate the picked model next.
- **Herald of the Ark:** Friendly Arks of the Signal within 8" of this model cannot be targeted by enemy models.

Glory Items

A Synod Warband can buy the following Glory Items during a campaign when an Exploration discovery allows it (▶ see Glory Items in the Trench Crusade Digital Rulebook). Items marked with [•] are unique to the Synod.

Item	Cost	Restriction	Effect
•Steady Lens	1	*Limit: 3*	Once per game, when the Eye of God would take this model Down and end its Activation, it gains 1 BLOOD MARKER instead.
•Prime Receptor	3	*Receptor only, Limit: 1*	This model gains the GOLEM and WEAK Keywords. It does not roll on the Trauma Table when it is taken Out of Action.
•Dispensation	4	*Observer Initiate and Synod Observer only*	This model can carry Ranged Weapons and Grenades, even if it has Divine Command.
Ducat Golem	4	*Limit: 1*	Added to your Arsenal, not to a model. At the end of each game, your Warband gains D6x5 ducats.
Holy Grenade	2	*Limit: 3*	Grenade, 8", ASSAULT, BLAST 2 , SHRAPNEL. Add +1 INJURY DICE to rolls against models with the BLACK GRAIL or DEMONIC Keyword.
Field Hospital	10	*Limit: 1*	Added to your Arsenal. If your Warband includes a Combat Medic, at the end of the Trauma Step you can treat 1 model with Battle Scars: roll 2D6. On 7+, remove 1 Battle Scar. On 3-6, nothing happens. On 2, the model gains 1 Battle Scar.
Resurrection Engine	11	*Limit: 1, CONSUMABLE*	Added to your Arsenal. Once per campaign, change a result rolled on the Trauma Table to Full Recovery.
Smokescreen	7	*Limit: 1*	At the start of a battle, after deployment, divide the battlefield into quarters and pick one. Add -1 DICE to Ranged Attacks whose Line of Sight crosses that quarter.
Sniper Scope	2	*Rifle only, Limit: 2*	Pick 1 Ranged Weapon this model has with "Rifle" in its name. It gains IGNORE LONG RANGE. It cannot be reallocated.
Knighthood	4	*ELITE only, Limit: 1*	At the end of each game, your Warband gains 1 glory for each model with a Knighthood on the battlefield.
